LIMESTONE TOWNSHIP SUPERVISORS' MINUTES

Attendance : Board Members: Walter Laidacker, Mark Cramer and Secretary, Lois Hoffman
Public Attending: Tim Funk, Beth Burleigh, Sam Burleigh

Call to Order:

Walter Laidacker called the meeting to order.

Approval of minutes and treasurer report:

A motion to approve the minutes of the July meeting and the disbursements for August was made by Mark Cramer and seconded by Walter Laidacker. All in favor.

Public Comment:

Mr. Burleigh thanked the supervisors for doing a good job. He felt their jobs had not been easy lately.

Secretaries report: Lois told the supervisors that the Liquid Fuel Audit was July 22 and everything went well. The auditor told Lois to just keep doing exactly what you are doing. Lois gave the supervisors copies of the general book audit that had been done April 17 and we had just received the books this week. That audit went very well as well, no problems found.

We received a Right to Know Request from Abbas Khan, Civic IQ, Inc. since this may be AI generated, Mark Cramer felt it would be best to ask Laurinda Voeleker, our lawyer, to take a look at it and make sure it is a legit request. Lois will send her a copy of the request.

Update on the Betz Farm. We did receive paperwork on this farm from DEP showing that the farm does have proper permits to dump waste there. It looks like it has not been inspected since 2022. Lois talked with Mr. Funk and told him he should have other neighbors call DEP also if the smell is bothering them as well. Lois also talked with Dustin Karschner from DEP requesting them to come and inspect the farm during the time when it will be getting waste.

Old Business:

Style Road – This is a road in Limestone Township that is way out of the way and easier for Lewis Township to plow snow there. In the past there had been an oral agreement between the two townships of who would maintain the road. The supervisors would like to talk with the Lewis Twp. Supervisors and get an agreement in writing to ensure all parties know what and who is taking care of it. Lois spoke with Laurinda from Lewis Township and it was agreed that our supervisors will go to the next Lewis Township meeting on September 2 at 4 pm to discuss this.

New Business

Walter stated that we need new knives for the Boom Arm, after discussing it; Mark made a motion to purchase new knives and seconded by Walter, all in favor.

There is a Costar workshop in Williamsport on September 30, two people from each township can go at no cost. Lois stated she would like to go and either Mark or Walter will be the second person depending on their schedule.

Mark suggested the township cut down some trees at the end of Royer Road and 254, they discussed going and looking at the sight.

Mark and Walter discussed Midland coming to do the work on the roads soon and they will go out and make sure the roads are marked. They also discussed the work that will be done on the parking lot.

Supervisor's comments:

Mark said He heard of a company that does fog sealing by the name of Striker and he suggested we put them on the list of companies to be made aware when we have a new job to be done.
The brakes on the boom tractor mower are not working properly. Walter will call Messicks to have them look at them.
Mr. Pulsifer sent us an email concerned about a loud noise coming from the Washingtonville area at night keeping his children awake. Walter checked it out and found it was coming from the Beachel Farm. Mr. Beachel is raising corn for Burkholder's Market and the birds are eating it. He set "canons" out to scare the birds away. He stated he wants to be a good neighbor and will quit using them at night time. Lois will let Mr. Pulsifer know.
The supervisors also talked about needing to go around and check on road signs before winter comes.

With there being no other business, Mark made a motion to adjourn, seconded by Walter all in favor.

Respectfully submitted,
Lois Hoffman, Secretary
